DISCUSSION OF SPEED LIMIT ON PARK AVENUE: Miller advised he had received emails from Park Avenue residents who had concerns with truck traffic from Gehl's and speeding vehicles. He noted that the truck traffic issue was resolved with Director of Public Works and Gehl's. Miller added that he has received additional calls regarding speeding concerns but nothing further about truck traffic.

Discussion followed with Pieper advising she was monitoring the traffic on Park and did observe a truck. Snow stated that speeding complaints on Park have been received in the past, there are some problems with limited space on that street for traffic posts with squads. He added that extra patrols could be done and the speed board could be set up in the area to monitor the speeds and he could bring those numbers back to the committee. Zabel mentioned that engineering could look into using a speed bridge similar to what was done at Saxony.

Wing brought up concerns with Gehl's as they had used Park Avenue for a truck hauling a silo after being told not to by the Village. He said he felt that laws should be enforced equally and he did not feel that was being done now. Wing also asked if signage similar to the speed signs used on Freistadt could be considered for Park Ave., or even if those signs could be moved to Park.

Kreklow advised he would talk to Public Works regarding signage and speed bumps, adding that Engineering is looking into the configuration of Hwy 145 in an effort to slow traffic, there may be other options to look into.

Miller stated this item would be brought back to next month's meeting with additional information from Snow and Kreklow.

Petition for Stop Light along Appleton Ave

I am petitioning for a stop light on Appleton Avenue at the entrance/exit for the Steins and Menards on the northeast side of Appleton Ave. GPS coordinates for the intersection being petitioned for a stop light are as follows: 43 degrees, 11' 37.46" N and 88 degrees 08' 20.77" W

The reason for this request is due to the safety concerns related to the volume of traffic on Appleton Ave combined the volume of traffic entering and exiting the businesses along this part of Appleton Ave (Steins, Menards, Walmart, Tires Plus, Fleet Farm). I believe a stop light at this intersection would ^{HELP} vehicles to cross traffic and access both directions of Appleton Ave in a much safer manner. I believe this would greatly reduce the accidents and near accidents that occur on this portion of Appleton Ave.
