## **BUSINESS OF THE VILLAGE BOARD**

MEETING DATE: December 18, 2023

PLACEMENT: Ordinance

ITEM TITLE: Truck Country of Wisconsin, Inc., Agent for RA Steinman Legacy LLC, Property Owner - N128 W21795 Holy Hill Road. (1) Rezoning application from M-1: Limited Industrial to B-5: Highway Business Zoning District and (2) Conditional Use Permit (CUP) to allow development and operation of a 37,700 sqft Motor Vehicle Sales and Service Facility.

SUBMITTED BY: Jeff Retzlaff, Community Dev. Director

### SUMMARY EXPLANATION:

Truck Country of Wisconsin Inc., agent for RA Steinman Legacy LLC, property owner, is requesting approval for a rezoning of 15.85 acres from the M-1: Limited Industrial to the B-5: Highway Business Zoning District and a Conditional Use Permit (CUP) to allow a 37,700 sqft “motor vehicle sales and service” facility on the property located in the southeast corner of the Holy Hill Road @ I-41 interchange in the Holy Hill Gateway District.

Truck Country was founded in 1958 by Robert McCoy in Shullsburg, WI. The company is family-owned and operated under the leadership of the McCoy family. Truck Country is one of the largest Freightliner dealership groups in the country with locations in Iowa, Indiana, Illinois, Ohio, Michigan, and Wisconsin. Truck Country offers new and used medium and heavy-duty trucks for sale, expert service, and an extensive parts inventory. Brands include Freightliner, Western Star, Autocar and Wabash. Truck Country is a full-service dealership providing repairs and parts for trucks and trailers. Truck Country is planning to relocate their existing facility from the Granville area business park on 107<sup>th</sup> Street in Milwaukee to this location.

### Rezoning

The existing zoning of the property is M-1: Limited Industrial. The proposed rezoning is to change zoning to the B-5: Highway Business Zoning District.

### Conditional Use Permit (CUP)

Vehicle sales and service businesses like Truck Country require a Conditional Use Permit (CUP) in the B-5 District. The proposed facility and operation have the following components:

- Full Truck Sales/Service/Parts Freightliner Dealership
- 37,700 sqft commercial building w/ 16,000 sqft service area, 7,000 sqft office and 14,700 sqft parts warehouse
- 206 total parking stalls (130 stalls for truck sales display)
- Operating M-F from 7 AM to 11 PM, Saturday from 7 AM to 4 PM, Closed on Sundays

- 45 Total Employees (2 shifts)
- Customer trucks will be parked pre- and post-service work (no overnight sleeping accommodations)
- Dealership vehicles will also be parked on site for parts delivery and service

**Background/Proposal**

Truck Country of Wisconsin Inc., agent for RA Steinman Legacy LLC, property owner, is requesting approval for a rezoning of 15.85 acres from the M-1: Limited Industrial to the B-5: Highway Business Zoning District and a Conditional Use Permit (CUP) to allow a 37,700 sqft “motor vehicle sales and service” facility on the property located in the southeast corner of the Holy Hill Road @ I-41 interchange in the Holy Hill Gateway District.

As presented on their website, Truck Country is part of the McCoy Group, Inc., founded in 1958 by Robert McCoy in Shullsburg, WI. The company is family-owned and operated under the leadership of the McCoy family. Truck Country is one of the largest Freightliner dealership groups in the U.S. today, serving customers at locations in Iowa, Indiana, Illinois, Ohio, Michigan, and Wisconsin. Truck Country offers new and used medium and heavy-duty trucks, expert service, and an extensive parts inventory. Brands include Freightliner, Western Star, Autocar and Wabash. Truck Country is a full service dealership, providing repairs and parts for trucks and trailers, as well as a large selection of new and used semi-trailers from the top brands in the industry.

<https://www.truckcountry.com/>

As discussed in August, Truck Country is planning to relocate their existing facility from the Granville area business park on 107<sup>th</sup> Street in Milwaukee to this location.

**Rezoning**

Existing zoning of the property is M-1: Limited Industrial. The proposed rezoning is to change zoning to the B-5: Highway Business Zoning District (section 17.32).

**Conditional Use Permit (CUP)**

Within the B-5 District, vehicle sales and service businesses like Truck Country also require a Conditional Use Permit (CUP). Truck Country is a truck sales and service operation with multiple locations in Wisconsin and throughout the Midwest. The proposed Germantown facility and operation has the following components:

- Full Truck Sales/Service/Parts Freightliner Dealership
- 37,700 sqft commercial building
  - o 16,000 sqft service area
  - o 7,000 sqft office
  - o 14,700 sqft parts warehouse
- 206 total parking stalls (130 truck display stalls)
- 8' high vinyl coated fence enclosure around entire site
- Operating M-F from 7 AM to 11 PM, Saturday from 7 AM to 4 PM, Closed on Sundays
- 45 Total Employees (2 shifts)
- Customer trucks parked pre and post service work. Number will vary based on workload
- Dealership vehicles also parked on the lot for parts delivery and service

---

As shown in the supporting plans, all existing storage buildings (five total) would be removed and the site re-developed. The proposed facility would include a 37,700 sqft sales & service building with approximately 206 parking stalls for truck display, pre & post-service truck parking, and employee parking). Proposed access to the facility includes using an existing driveway north of the self-storage property. A new driveway that would serve as the primary entrance to/from the Truck Country facility is proposed on the south side of the self-storage property. It is intended that the new facility will be served by public sanitary sewer & water.

If approved, detailed site development & building plans will be submitted for review and approval by the Village.

### **Staff Comments**

This property is in the “Holy Hill Gateway District” under the Village’s 2050 Comprehensive Plan and the current zoning is M-1: Limited Industrial. The property is located within the Village’s recently expanded Sanitary Sewer Service Area (SSSA) and capable of being served with public sewer and water with extensions from existing laterals nearby (water main and sanitary sewer would likely be extended west from the existing terminus near the Holy Hill Road @ Gateway Crossing intersection).

As discussed in August, the current 2050 Plan “vision” for this and adjacent properties is for mixed-use commercial & higher density residential uses with retail and service related commercial uses at this intersection (noted on the 2050 Land Use Plan with a commercial activity node “C” at the frontage road intersection). The area is not intended to be a continuation of the existing light industrial/business park located to the east (i.e. Germantown Gateway Corporate Park & Capstone 41 Business Park). The PC discussed the fact that the Village had not yet completed (much less started) the process of developing detailed “master plans” for the Holy Hill Gateway and Freistadt Districts and did not expect those plans to be completed until sometime in 2024. As a result, Staff’s opinion was that it is premature to abandon the mixed-use commercial & residential development concept set forth in the 2050 Plan “vision” even though the conclusion of that effort may be that the best use for the properties in the southeast area adjacent to US41 is more highway-oriented commercial (like Truck Country) and not so much high-density residential or neighborhood retail.

As we discussed last month and with respect to the Green Bay Packaging proposal north of Holy Hill Road, over the last few months more questions and information about the suitability of the Freistadt District for industrial and other business park uses as shown in the 2050 “vision” plan (Figure 6.6) have surfaced. For example, because of the comprehensive wetland delineation effort that was done this summer as part of the Village of Richfield water & sanitary sewer extension project, the amount and extent of wetlands and other environmental constraints south of the railroad and throughout the Freistadt District suggest that maybe the Freistadt District is better suited for high-density residential uses and not business or industrial uses.

---

Furthermore, meetings and conversations this fall with WisDOT, the Wisconsin & Southern Railroad (WSOR), and the Office of the Commissioner of Railroads (OCR) indicate that the process of upgrading the existing railroad crossing for the proposed frontage road south of Holy Hill Road is going to be lengthier than originally thought without any guarantee that an upgraded crossing will be approved (WSOR and the OCR are likely to view the Village's request as a new railroad crossing vs. a upgrade to an existing one).

Ideally, while Staff would prefer to wait until a more thorough assessment of environmental and other constraints in both the Freistadt and Holy Hill Gateway Districts has been completed, results of the residential market analysis are known, and a definitive decision on the railroad crossing/frontage road issue, there are multiple compelling arguments that can be made to support a decision to revise the "vision" plan for this area now and allow the Truck Country development proposal to move forward before the Holy Hill Gateway and Freistadt District master plans have been completed.

Moreover, the Truck Country operation is a highway-oriented, retail service use that is compatible with and supportive of the existing industrial & warehousing uses in the area that should be in close proximity to the US41 interchange.

For these reasons, Staff is in favor of the proposed rezoning and conditional use permit for the Truck Country vehicle sales and service facility and operation.

#### Outstanding Issues

With that said, there are number of issues that unresolved that will need to be addressed prior to or concurrent with the Village approving site development & building plans.

The most significant issue concerns access to the site. The site does not have direct frontage onto a public right-of-way or private street. As shown in the development plan, two (2) access driveways are proposed to serve the Truck Country operation. Both the existing driveway on the north side of the property that currently serves the existing boat storage use (north of the self-storage property) and the proposed driveway south of the self-storage property provide access to Holy Hill Road via easements across property owned by Holy Hill Self Storage.

The issue with the north driveway is that it is located too close to the Holy Hill Road intersection with insufficient turning area to accommodate the regular volume and size of trucks (and trailers) entering & leaving the site. Once the planned frontage road from Holy Hill Road south to Freistadt Road is constructed and there is a regular flow of through traffic destined to/from the Holy Hill Road interchange, the lack of separation distance from the intersection to the north driveway will make matters worse with the potential for left-turning trucks exiting the site blocking southbound traffic on the frontage road. If this driveway is allowed to be used for access to the Truck Country site, staff recommends that it only be used for emergency vehicle access purposes only or restricted to a right-in/right-out only movement.

---

A traffic impact study for the Truck Country operation should be required to be prepared and submitted concurrent with any site development & building plan application if Truck Country has a desire need to use the existing north driveway for site access.

The issue with the proposed south driveway is that the 2-acre parcel owned by Holy Hill Self Storage through which this driveway would be served is not improved from Holy Hill Road to the proposed driveway location (and the part that is paved from Holy Hill Road to the self-storage entrance is substandard at best and inadequate for the type and amount of traffic expected to/from the Truck Country operation). Moreover, based on staff conversations with agents for both Truck Country and Holy Hill Self Storage, it is unclear exactly what rights the existing access easements actually convey to the Truck Country property (currently owned by RA Steinman Legacy LLC) in terms of being able to construct a new and improved driveway in the property owned by Holy Hill Self Storage, what approval is required on the part of the owner, Holy Hill /Self Storage, and what agreement has been (or needs to be) made between the two owners in order for the 2-acre parcel to be improved with a new, mutually-acceptable private driveway or street.

To compound this issue, the Village continues to move forward with plans to obtain WisDOT, WSOR and WI OCR approval to upgrade the railroad crossing, acquire the 2-acre parcel owned by Holy Hill Self Storage, and construct a public frontage road from Holy Hill Road south across the railroad to Freistadt Road. Ideally, acquisition and/or dedication of the 2-acre parcel to the Village for public road right-of-way by the current owner, Holy Hill Self Storage, or Truck Country may enable construction of a public road and installation of sewer & water utilities abutting the Truck Country and Holy Hill Self Storage properties.

Another related issue concerns the extension of sanitary sewer and water to the Truck Country site from the existing mains/laterals further east in the Holy Hill Road right-of-way. To serve the Truck Country site, utilities will have to be constructed across the same private property owned by Holy Hill Self Storage. Like construction of a new and improved driveway from Holy Hill Road to the Truck Country south driveway entrance, it is unclear exactly what rights the existing access easements convey to the Truck Country property (currently owned by RA Steinman Legacy LLC) in terms of being able to construct sewer & water utilities in/across the property owned by from Holy Hill Road Self Storage, what approval is required from Holy Hill /Self Storage, and what agreement has been (or needs to be) made between the two owners in order for the 2-acre parcel to be improved with sewer & water utilities.

Finally, existing survey information for the Truck Country site and the proposed development plan indicates that there is a significant amount of wetland in the southeast portion of the site within and through which Truck Country proposes to install the south driveway/site entrance and storm water management basin. Staff understands that an "artificial wetland determination" application has been made to the WisDNR. At this time, it is not known if the WisDNR and/or Army Corp of Engineers will claim jurisdiction and require mitigation/compensation for the proposed wetland filling or determine that

the wetlands to be impacted are artificial and not regulated. The outcome of these decisions may warrant changes to the site development plans that will need to be submitted to the Village for Plan Commission review and approval. If any wetlands are determined to be regulated (i.e. not artificial and under WisDNR and/or ACOE jurisdiction) and filling is proposed, proof that any wetland filling has been approved will need to be provided to the Village prior to approval of any site development & building plans. Also, if wetland is filled, the Village will continue to maintain a 25' "no touch" setback extending outward from the unfilled wetland boundary so the developer is advised to obtain permission to fill to a point where proposed development would not encroach into the Village's 25' wetland setback.

#### Public Works/Village Engineer

The following comments from the Village Engineer pertain to issues or items that will need to be addressed as part of the site development & building plan applications:

- Roads. Consider north south corridor for future access to driveway.
- Parking Lot. Clarify total area of parking lot disturbance.
- Stormwater. >5000SF impact requires SWMP, new 62460sf retention pond.
- Building. 30,000 SF. File NOI with WDNR. File EC Permit with Village.
- Wetlands. Delineated by Helianthus 8/20/23; establish 25ft set-back
- Sanitary. Main Available in Holy Hill Road.
- Water. Main Available in Holy Hill Road.
- Drawings. All site plans need to be prepared per the Village Development Handbook standards.

#### Village Forester

Similarly, The following issues or items will need to be addressed as part of the site development & building plan applications:

- As shown on aerial imaging there is a grove of trees northwest of the existing buildings that are not included in the survey or proposed site plan. Per Zoning Code requirements, I am requesting that a survey of the existing trees on site be conducted and a landscape plan prepared that identifies all proposed tree removal and protection measures that will be used for tree preservation per section 17.43(5)(a). Code 18.03(5)(a-b) identifies tree preservation and removal restrictions required by the Village.

#### Next Steps

If the Plan Commission is in favor of the rezoning and CUP applications for the Truck Country vehicles sales and service facility and operation, the following permits/approvals will be required from the Village:

1. Village Board approval of the Rezoning & CUP applications
2. Site Development & Building Plan approval
3. Site Grading & erosion control plans & permit
4. Storm water management plan approval
5. Road construction & public utility improvement plans
6. Building permits
7. Building Occupancy & Zoning Compliance Permits

### VILLAGE STAFF RECOMMENDATIONS

**APPROVE** rezoning the 15.85 acre property owned by RA Steinman Legacy LLC from M-1: Limited Industrial to the B-5: Highway Business Zoning District as proposed.

**APPROVE** the Conditional Use Permit (CUP) application for Truck Country of Wisconsin Inc. for the development and operation of a 37,700 sqft facility for motor vehicle sales and service on the property located at N128 W21795 Holy Hill Road subject to the following conditions:

1. The uses and activities allowed on the property shall be limited to those uses and activities specified in the conditional use permit (CUP) application and supporting documents dated October 9, 2023. Uses and features common to “truck stop” operations are prohibited, including but not limited to customer showers, laundry facilities, in-vehicle or on-site over-night sleeping accommodations. The size and location of buildings, parking, storm water management, and those areas within the property from which said uses and activities are permitted are limited to that presented in the “Architectural Site Plan” Sheet AS100 and “Exterior Rendering” dated October 9, 2023, and description submitted in the application and supporting documents. Days and hours of operation shall be limited to those specified in the CUP application and supporting documents submitted to the Village (Monday through Friday 7:00am to 11:00pm and Saturday from 7:00am to 4:00pm).
2. The Owner/Operator is responsible for reporting any significant changes in the type, intensity, amount, or location of the land uses and activities, days and hours of operation, size or location or other operational characteristics of said uses and activities authorized under this CUP to the Village Zoning Administrator.
3. If the use, activities and/or operation subject of this permit falls out of conformity with the conditions herein, or, where there is a change in the nature, character, intensity or extent of the activities or uses which causes problems or harmful effects that were not anticipated at the time of approval of this CUP, the conditional use permit may be modified or terminated by the Village Board by the amendment to or addition of conditions after public hearing thereon.
4. All temporary and permanent exterior signs require a permit and shall comply with all current sign regulations. Off-premises advertising and directional signage is regulated by the Village and requires a permit if/when allowed.
5. Use of the existing non-conforming billboards located on the property for advertising and/or wayfinding for the Truck Country operation shall be prohibited.

- 
6. All future site improvements, including all building, parking area, landscaping, storm water management facilities, signage, exterior lighting, and any other improvements made to or on the property that are necessary for the land uses and activities authorized under this CUP shall be submitted for review and approval by the Village through the Zoning Permit or Site Plan application process as determined by the Village Zoning Administrator. If required, Site Plan review and approval will include Plan Commission review and approval.
  7. Building permits and commercial building code plan approval are required for the planned demolition of existing structures on the site and the proposed 37,700 sqft building. Contact SAFEbuilt staff in Inspection Services at Village Hall prior to any work for information about required permits and/or plan approvals.
  8. If the existing north driveway is intended to be used for any type of access to the Truck Country site, a traffic impact study (TIS) for the Truck Country operation shall be prepared and submitted prior to or concurrent with the submittal of site development & building plan applications. Said TIS should include an analysis of all existing and proposed intersections and driveways serving the Truck Country site to determine the adequacy of site distance, available ingress/egress maneuvering, site distances, corner clearances and driveway separation, turning lane and traffic control requirements, etc. Said analysis shall consider the impact of future development traffic from future development north and south of Holy Hill Road with and without the Village's proposed frontage road and railroad crossing.
  9. Site development and building plans for the proposed 37,700 sqft Truck Country building and site shall not be approved by the Village until a mutually acceptable and code compliant access road/driveway(s) has been determined and agreed to by the Village, Truck Country/RA Steiman Legacy LLC, and Holy Hill Self Storage LLC. Zoning Compliance & Occupancy Permits for the proposed building and use of the site as authorized under this CUP shall not be issued until construction of said access road/driveway(s) and the extension/installation of sewer & water utilities has been completed or is scheduled to be completed prior to or concurrent with the business startup date.

Lot 2 of Certified Survey Map No. 6264 recorded in the Office of the Register of Deeds for Washington County, Wisconsin on October 16, 2008, in Volume 47 of Certified Survey Maps, Page 72 as Document No. 1203108, said Certified Survey Map being a part of the Northwest fractional 1/4 and Southwest fractional 1/4 of the Northwest 1/4 of Section 18, Township 9 North, Range 20 East, in the Village of Germantown, Washington County, Wisconsin.

5

**PURPOSE OF REZONING REQUEST**

Briefly describe why the applicant is rezoning the property. Include a description of the proposed use, including any new construction and number of employees, if applicable.

The proposed new site use is to support Freightliner truck dealership sales/service and parts sales. Which is more in keeping with the uses listed (with a conditional use permit) for B-5 Highway Business District.

- Operating M-F from 7 AM to 11 PM, Saturday from 7 AM to 4 PM, Closed on Sundays
- 45 Total Employees
- 20 New Trucks and 20 Used Trucks on display
- Customer trucks parked pre and post service work. Number will vary based on work load.
- Dealership vehicles also parked on the lot for parts and service departments.

6

**SUPPORTING DOCUMENTATION:**

- ☐ Plat of Survey (1:100)
- ☒ Site Plan and elevations for new construction (can be conceptual)

7

**READ AND INITIAL THE FOLLOWING:**

- X I understand that the Village is under no obligation to rezone property and that density and lot coverages provided in the Zoning Code are maximums. Actual build out will depend on myriad factors including topography and other natural conditions, surrounding neighborhood context and the detailed design of a project.
- X I understand that Village Staff, Plan Commission and/or Village Board may request additional information to properly evaluate this request and failure to provide such information may in itself be sufficient cause to deny the petition.
- X I am aware that this rezoning shall go into effect immediately upon the final approval of the Village Board and its execution of the rezoning ordinance
- X I understand that Village Staff is required to post one or more signs along the street frontage of and/or on the property subject of this application that indicate to nearby property owners and the general public that a public hearing of my application will be held before the Village Plan Commission and/or Village Board prior to action taken on this application; I hereby grant Village Staff permission to enter onto the property for the expressed purpose of installing said sign(s) provided Village Staff is responsible for installing, maintaining and removing said signs in a reasonable manner and time frame.

**On the following described property located in the Village of Germantown, Washington County, Wisconsin:**

Lot 2 of Certified Survey Map (CSM) No. 6264, being a part of the West ½ of the Northwest ¼ of Section 18, Township 9 North, Range 20 East, in the Village of Germantown, Washington County, Wisconsin.

Tax Key No: 182-987

Address: N128 W21795 Holy Hill Road

**Pursuant to the following condition(s):**

1. The uses and activities allowed on the property shall be limited to those uses and activities specified in the conditional use permit (CUP) application and supporting documents dated October 9, 2023. Uses and features common to “truck stop” operations are prohibited, including but not limited to customer showers, laundry facilities, in-vehicle or on-site over-night sleeping accommodations. The size and location of buildings, parking, storm water management, and those areas within the property from which said uses and activities are permitted are limited to that presented in the “Architectural Site Plan” Sheet AS100 and “Exterior Rendering” dated October 9, 2023, and description submitted in the application and supporting documents. Days and hours of operation shall be limited to those specified in the CUP application and supporting documents submitted to the Village (Monday through Friday 7:00am to 11:00pm and Saturday from 7:00am to 4:00pm).
2. The Owner/Operator is responsible for reporting any significant changes in the type, intensity, amount, or location of the land uses and activities, days and hours of operation, size or location or other operational characteristics of said uses and activities authorized under this CUP to the Village Zoning Administrator.

3. If the use, activities and/or operation subject of this permit falls out of conformity with the conditions herein, or, where there is a change in the nature, character, intensity or extent of the activities or uses which causes problems or harmful effects that were not anticipated at the time of approval of this CUP, the conditional use permit may be modified or terminated by the Village Board by the amendment to or addition of conditions after public hearing thereon.
4. All temporary and permanent exterior signs require a permit and shall comply with all current sign regulations. Off-premises advertising and directional signage is regulated by the Village and requires a permit if/when allowed.
5. Use of the existing non-conforming billboards located on the property for advertising and/or wayfinding for the Truck Country operation shall be prohibited. Subject to further review by the Village Attorney, the two (2) non-conforming billboards shall be removed from the property.
6. All future site improvements, including all building, parking area, landscaping, storm water management facilities, signage, exterior lighting, and any other improvements made to or on the property that are necessary for the land uses and activities authorized under this CUP shall be submitted for review and approval by the Village through the Zoning Permit or Site Plan application process as determined by the Village Zoning Administrator. If required, Site Plan review and approval will include Plan Commission review and approval.
7. Building permits and commercial building code plan approval are required for the planned demolition of existing structures on the site and the proposed 37,700 sqft building. Contact SAFEbuilt staff in Inspection Services at Village Hall prior to any work for information about required permits and/or plan approvals.
8. If the existing north driveway is intended to be used for any type of access to the Truck Country site, a traffic impact study (TIS) for the Truck Country operation shall be prepared and submitted prior to or concurrent with the submittal of site development & building plan applications. Said TIS should include an analysis of all existing and proposed intersections and driveways serving the Truck Country site to determine the adequacy of site distance, available ingress/egress maneuvering, site distances, corner clearances and driveway separation, turning lane and traffic control requirements, etc. Said analysis shall consider the impact of future development traffic from future development north and south of Holy Hill Road with and without the Village's proposed frontage road and railroad crossing.
9. Site development and building plans for the proposed 37,700 sqft Truck Country building and site shall not be approved by the Village until a mutually acceptable and code compliant access road/driveway(s) has been determined and agreed to by the Village, Truck Country/RA Steinman Legacy LLC, and Holy Hill Self Storage LLC. Zoning Compliance & Occupancy Permits for the proposed building and use of the site as authorized under this CUP shall not be issued until construction of said access road/driveway(s) and the extension/installation of sewer & water utilities has been completed or is scheduled to be completed prior to or concurrent with the business startup date.

## **BUSINESS OF THE VILLAGE BOARD**

MEETING DATE: December 18, 2023

PLACEMENT: Action Item

ITEM TITLE: Fabrizio Montermini, Agent for Sentinel-Germantown, LLC, Property Owner - W180 N11070 River Lane. 2-Lot Certified Survey Map application (CSM) to divide a 14.7 acre property and create a 5.6 acre parcel.

SUBMITTED BY: Jeff Retzlaff, Community Dev. Director

### SUMMARY EXPLANATION:

Fabrizio Montermini, agent for Sentinel Germantown LLC, PROPERTY OWNER, AND THE Aurora Germantown Health Center, is requesting approval of a 2-lot Certified Survey Map (CSM) to divide an undeveloped 5.6-acre portion of the property located at W180 N11070 River Lane. Sentinel Germantown LLC, owner of the 14.7 acre Aurora Germantown Health Center property, wants to create a separate parcel for future development on the undeveloped portion that lies to the east. The proposed CSM divides the property into two (2) parcels:

- Lot 1: 9.1 acres      Aurora Health Center
- Lot 2: 5.6 acres      Undeveloped

As detailed in the staff report (attached), access to the proposed Lot 2 is complicated given that it does not currently abut a public or private right-of-way and has no access. Access alternatives include the possible extension of Grace Way from Mequon Road and/or the extension of Stonewood Drive. Both alternatives require the Village to accept 60' road right-of-way reservations and for some entity to construct a public street from where both Grace Way and Stonewood Drive currently end to Lot 2 (either the Village or the developer of Lot 2). Because there is no specific development proposal for Lot 2, the recommended solution to addressing access is to indicate on the CSM that right-of-way will need to be dedicated across Lot 2 to provide for access to other abutting land to the south, and, to prohibit development of Lot 2 until a specific development proposal is received and a suitable access alternative determined at that time.

**Proposal**

Fabrizio Montermini, agent for Sentinel Germantown LLC (Aurora Germantown Health Center), property owner, is requesting approval of a 2-lot Certified Survey Map (CSM) to divide an undeveloped 5.6-acre portion of the property located at W180 N11070 River Lane.

As described in the application, Sentinel Germantown LLC, owner of the 14.7 acre Aurora Germantown Health Center property, wants to create a separate parcel for future development on the undeveloped portion that lies to the east. The proposed CSM divides the property into two (2) parcels:

Lot 1: 9.1 acres      Aurora Health Center  
Lot 2: 5.6 acres      undeveloped

**Staff Comments**Community Development: Planning & Zoning

As shown on page 2 of the CSM, the proposed 5.6-acre parcel does not currently have access to an improved public right-of-way. Access to proposed Lot 2 is limited to the existing paved parking lot drive isle across the adjacent Aurora Health Center development (Lot 1). Although a shared access/private driveway arrangement within a cross-access easement through the parking lot may be suitable for access to future development on Lot 2, it is not known if this type of access will be sufficient because we don't know type or amount of development might occur on Lot 2. The type, amount, orientation, and other considerations associated with future development of Lot 2 will determine the type and amount of access needed.

With that said, future access to Lot 2 may be possible from two (2) public right-of-way access alternatives:

1. Grace Way. Grace Way is an existing private street located north of the proposed Lot 2 that extends about 600' south of Mequon Road. Sometime between 2000 and 2005, the private driveway that served what is now the Berean House of Worship property (formerly Stoney Hill Church) on the east side and the Berean Bible Society property (on the west side) was re-constructed to street standards with maintenance by the Village. Both parcels were required to reserve land along the common property line (20' on the west and 40' on the east) for future public street construction and extension. If accepted by the Village as public right-of-way and improved to public street standards all the way to the end of these parcels, Grace Way would abut Lot 2.
2. Stonewood Drive is an existing public street cul-de-sac serving the Stonewood Corporate Center to the east. However, as part of the plat, a 60' road reservation was required at the end of Stonewood Drive across what is now the Momentum Childcare/Early Learning facility. If accepted by the Village as public right-of-way and improved to public street standards from the existing cul-de-sac, this 60' road reservation would also abut Lot 2.

Further, because proposed Lot 2 is not the only undeveloped property located between Mequon Road and Lilac Lane that could potentially be served by the construction and

---

extension of Grace Way, Stonewood Drive or both, it is unclear if the extension of one or both across Lot 2 will be necessary or required to provide access to the other property and future development to the south.

In light of the above, staff recommends that: (1) the Village formerly accept the road reservation as public right-of-way for the future extension of both Grace Way and Stonewood Drive; (2) a cross-access easement to added across Lot 1 to possibly provide legal access to Lot 2 from River Lane through the existing parking lot/drive isle; (3) the developer be required to dedicate 60' of right-of-way for the potential extension and connection of Grace Way to Stonewood Drive and further extension to serve the property to the south; and (4) future development of proposed Lot 2 should not be permitted unless/until suitable access to serve future development on Lot 2 and other undeveloped property to the south has been determined.

With respect to #4 above, subject to further discussion with the property owner and the Village's attorney, a note should be placed on the face of the CSM indicating the following:

*"The development of Lot 2 shall not be permitted by the Village of Germantown until a mutually acceptable and code compliant means of public or private street access to serve future development on Lot 2 and the other undeveloped property located to the south of Lot 2 has been determined and constructed to serve such development. If the type and amount of development warrants access by way of an extension of Grace Way and/or Stonewood Drive, the developer/property owner shall be responsible for the construction of Grace Way and/or Stonewood Drive to public road standards approved by the Village of Germantown".*

Public Works/ Village Engineer/Village Surveyor

The Village Engineer has commented that, in addition to needing to work out suitable access to proposed Lot 2, future development of Lot 2 will be required to meet all storm water management requirements. Easements across Lot 1 and Lot 2 already exist to provide sewer & water service to Lot 2 from River Lane.

The Village Surveyor has identified a series of minor technical corrections in an October 31, 2023 memo that will need to be addressed in a revised CSM prior to recording.

**VILLAGE STAFF RECOMMENDATIONS**

**APPROVE** the proposed Certified Survey Map (CSM) for the Sentinel Germantown LLC property located at W180 N11070 River Lane subject to the following conditions:

1. All technical issues and corrections identified by the Village Surveyor (see October 31, 2023 memo from Burt Naumann, GRAEF) shall be addressed and reflected in a revised CSM reviewed and approved by Village staff prior to recording.
2. The name of the Village Clerk shown in the Village approval certificate on Sheet 4 of 4 should be changed to the current Village Clerk "Donna S. Cox, Village Clerk".
3. ~~A cross-access easement shall be placed on the CSM across Lot 1 from River Lane to the west side of Lot 2 for purposes of providing access to/from Lot 2.~~
4. The developer shall dedicate 60' of right-of-way for the extension and connection of Grace Way to Stonewood Drive and further extension to serve the property to the south. The location of said right-of-way shall be determined at the time development of Lot 2 is proposed. Said 60' right-of-way shall be shown along the north and east property lines;
5. A note shall be placed on the CSM indicating the following: *"The development of Lot 2 shall not be permitted by the Village of Germantown until a mutually acceptable and code compliant means of public or private street access to serve future development on Lot 2 and the other undeveloped property located to the south of Lot 2 has been determined and constructed to serve such development. If the type and amount of development warrants access by way of an extension of Grace Way and/or Stonewood Drive, the developer/property owner may shall be responsible for the construction of Grace Way and/or Stonewood Drive to public road standards approved by the Village of Germantown subject to mutually acceptable terms set forth in a development agreement with between the property owner of Lot 2 and the Village".*

SUBJECT: Sentinel Germantown LLC CSM Review

### **Certified Survey Map**

**Applicant or Owner:** Sentinel Germantown LLC  
**Land Surveyor/Firm:** Rory Synstelion / Civil Site Group

1. On sheet 1 section 28 is mislabeled as section 29 numerous times.
2. The POB needs to be labeled on the CSM.
3. On the bottom of sheets 1 and 2 the surveyor's last name is misspelled.
4. Current building setback lines need to be mapped and dimensioned.
5. Professional Land Surveyor's seal and signature in contrasting color needs to be provided on each sheet.
6. A Mortgagee Certificate will need to be included, if applicable.
7. Label the recording information for the documents used to dedicate Mequon Road and River Lane.
8. In the Owner's Certificate remove "dedicated".
9. The Village Clerk's name is Donna Cox.

No further review comments.

### **Document Approval and Recording**

For this CSM to be approved by the Village Board and recorded at the Washington County Register of Deeds, the document must be provided to the Village Clerk's office in a completed format including all original signatures of the owner and lending institution, original seals of the professional land surveyor on the recordable media the Wednesday prior to the scheduled Village Board meeting.

Any documents or digital files not submitted by the due date or contain outstanding technical review comments that have not be addressed, will be moved to the next scheduled Village Board meeting agenda.

**Document Submittals and Data Conversion**

As of October 2005, the Village of Germantown requires a digital copy of all Certified Survey Maps, Condominium Plats and Subdivision Plats in addition to the documents as required by Wisconsin Statute and Village Ordinances as part of the land division approval.

**Prior to Recording the Certified Survey Map or Subdivision Plat**, The professional land surveyor is responsible for submitting a copy of the AutoCad drawing file (.dwg) of the document in version 2019 on compact disk (CD) or via email to the Village Surveyor for mapping purposes.

All digital professional land surveyor seals and signatures will be purged from the digital copy prior to submittal.

Note: In 2020, the Village will be upgrading its municipal code to recognize the NAD83 Datum, 2011 adjustment for horizontal control and NAVD88 for vertical control for mapping all land division documents and plan submittals for review.

There are new dossier sheets for all the Public Land Survey System monuments that contain the new coordinate positions and elevations available currently on the State Cartographer's website by using the Survey Control Finder application

**Prior to Recording the Certified Survey Map or Final Subdivision Plat**, the Village Engineering Department will verify that the boundary markers have been installed as described on the submitted map. All boundary corners are to be clearly marked in the field by the professional land surveyor of record.

Sincerely,

Burt J. Naumann, PLS

**Job Number:**

2021 HOND Accord Sedan Sport w/Continuously Variable Transmission 4D SED 4-1.5L Turbocharged Gasoline Gasoline Direct Injection

Estimate based on MOTOR CRASH ESTIMATING GUIDE and potentially other third party sources of data. Unless otherwise noted, (a) all items are derived from the Guide ARG4446, CCC Data Date 11/08/2023, and potentially other third party sources of data; and (b) the parts presented are OEM-parts. OEM parts are manufactured by or for the vehicle's Original Equipment Manufacturer (OEM) according to OEM's specifications for U.S. distribution. OEM parts are available at OE/Vehicle dealerships or the specified supplier. OPT OEM (Optional OEM) or ALT OEM (Alternative OEM) parts are OEM parts that may be provided by or through alternate sources other than the OEM vehicle dealerships with discounted pricing. Asterisk (\*) or Double Asterisk (\*\*) indicates that the parts and/or labor data provided by third party sources of data may have been modified or may have come from an alternate data source. Tilde sign (~) items indicate MOTOR Not-Included Labor operations. The symbol (<>) indicates the refinish operation WILL NOT be performed as a separate procedure from the other panels in the estimate. Non-Original Equipment Manufacturer aftermarket parts are described as Non OEM, A/M or NAGS. Used parts are described as LKQ, RCY, or USED. Reconditioned parts are described as Recond. Recored parts are described as Recore. NAGS Part Numbers and Benchmark Prices are provided by National Auto Glass Specifications. Labor operation times listed on the line with the NAGS information are MOTOR suggested labor operation times. NAGS labor operation times are not included. Pound sign (#) items indicate manual entries.

Some 2023 vehicles contain minor changes from the previous year. For those vehicles, prior to receiving updated data from the vehicle manufacturer, labor and parts data from the previous year may be used. The CCC ONE estimator has a list of applicable vehicles. Parts numbers and prices should be confirmed with the local dealership.

Due to continuing unforeseeable part and material price increases, Merton Auto Body does not guarantee the price quoted on this estimate. This quote is based on a quick visual inspection of the vehicle. When formulating a specific price for repairs, it is necessary to verify and follow manufacturer specifications and repair procedures. This information is not always readily available during the estimating process. The prices reflected are accurate based on the best information available at the time of inspection. The prices quoted are subject to change when necessary to accommodate the fluctuating cost of doing business. We thank you for patronizing a local small business.

## **BUSINESS OF THE VILLAGE BOARD**

MEETING DATE: December 18, 2023

PLACEMENT: Action Item

ITEM TITLE: 5 Year Road Program

SUBMITTED BY: Kevin Driscoll, Village Engineer

SUMMARY EXPLANATION:

Staff is presenting the Updated 5 Year Paving Program for discussion.

The Annual Program summary for each of the next 5 years is attached.

ATTACHMENT:

1. 5 Year Road Program (2024-2028)

RECOMMENDATION:

Staff requests the Public Works and Highways Committee recommend to the Village Board the adoption of the 5 Year Road Program.

ACTION BY Committee:

Proper parliamentary procedure to support this request is to have a motion made in the affirmative, and by voting NAY would deny the request if a majority vote.

To: Citizens of the Village of Germantown  
Members of the Board of Trustees

The *Annual Comprehensive Financial Report* for the Village of Germantown, Wisconsin for fiscal year ending December 31, 2022, is prepared to provide the Board, our citizens, our bondholders, and other interested persons, detailed information concerning the financial condition of the Village government. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the village government. The report was prepared by the Village's Administration and Finance departments and contains representations concerning the finances of the Village. We believe the data, as presented is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the Village as measured by financial activity of its various funds; and that all disclosures necessary to enable the reader to gain reasonable understanding of its financial affairs have been included.

The Village retained the services of Baker Tilly US, LLP to perform its audit. Based upon standard audit procedures, Baker Tilly US, LLP has issued an unmodified opinion on the Village's financial statements for the year ended December 31, 2022. The auditor's opinion is located at the front of the financial section of this report.

### **Report Format**

The *Annual Comprehensive Financial Report* is presented in three main sections: introductory, financial and statistical. The introductory section contains this transmittal letter, the Village's organizational chart, a list of principal officials, and other information. The financial section contains the independent auditors report, management's discussion and analysis (MD&A), government-wide financial statements, notes to the financial statements and more detailed fund financial statements. A third section provides selected statistical and general information presented on a multi-year comparative basis.

### **Reporting Entity**

This report includes all funds of the Village of Germantown. The criteria used in determining the reporting entity are consistent with criteria established by the Governmental Accounting Standards Board (GASB) as outlined in the Codification of Governmental Accounting and Financial Reporting Standards. This report includes the General Fund, which accounts for the general administration of the Village, Special Revenue funds relating to Economic Development, and long-term Capital Projects funds and Internal Service Funds. The report also includes the Village's Enterprise funds that account for the Water and Wastewater Utilities. Internal service funds provide information on the health and dental protection plans of the Village's employees.

### **Village Profile**

Located 25 miles northwest of Milwaukee, Germantown encompasses 34 square miles in the southeast corner of Washington County. Germantown is one of the largest villages in geographical area in the State of Wisconsin. The Village's current population, as of the 2020 census, is 20,917, a 5.8% increase over the prior ten year's period. The 2022 estimated population is 21,015. The Village operates under a council-manager form of government. There are nine members on the Germantown

Village Board. Eight of the members are elected from four trustee districts and the Village President is elected at large. Board members are elected to three-year terms. The appointed Village Administrator is responsible for the day-to-day operations of the Village, the appointment of administrative staff members, and the supervision of all employees.

The area offers a pleasing, small-town character enhanced by all the modern amenities of a first-class suburb. Germantown residents take advantage of exceptional schools, modern healthcare providers, attractive real estate, well-maintained parks and facilities as well as unique shops and local restaurants. While the village has worked hard to provide its residents with the finest in big-city conveniences, it has worked equally hard to maintain its rich German heritage and beautiful architecture.

The Village provides typical municipal services including: police, fire, emergency dispatch and ambulance services; public works activities such as highway and street maintenance, and recycling; recreational activities such as parks, recreation programs, public library and senior activity center; community development activities including planning and zoning enforcement, economic development, and general administrative and financial services. The Village operates a Water and Wastewater Utility as enterprise funds.

### **Accounting Systems and Budgetary Control**

The Village's accounting records for governmental and custodial funds are based upon the modified accrual basis, with revenues recorded when available and measurable and expenditures recorded when the services and goods are received, and the liabilities incurred. Accounting records for the Village's utilities are maintained on an accrual basis.

In developing the Village's overall accounting system, consideration was given to the adequacy of the internal accounting control structure. Internal controls are designed to provide reasonable but not absolute assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial resources for preparing financial statements and maintaining accountability for assets.

The concept of reasonable assurance recognized that: (1) the cost of a control should not exceed the benefits likely to be derived and (2) the evaluation of costs and benefits requires estimates and judgements by management. We believe that the Village's internal accounting controls adequately safeguard assets and provides reasonable assurance of proper recording of financial transactions.

Village Board policy provides for adoption of an annual budget prepared by management. The budget, as adopted by the Board, is intended to appropriate expenditures on a program or functional basis. The Village Administrator is granted authority to make mid-year adjustments within budgeted accounts of a department. Budget amendments which change a departmental budget appropriation or are transfers between departments or funds must be approved by a 2/3 majority of the Village Board.

The Village Board's updated Fund Balance Policy establishes a minimum unassigned Fund Balance. It states that the Village will maintain a minimum unassigned fund balance in its General Fund ranging from 16% to 25% of the subsequent year's budgeted expenditures. This minimum fund balance is to protect against cash flow shortfalls related to timing of projected revenue receipts and to maintain a budget stabilization commitment. The 2022 unassigned fund balance is 36% of the subsequent year's expenditure budget, changing from \$7.43 million in 2021 compared to \$6.73 million in 2022. When an unassigned fund balance of the General Fund exceeds 20%, the Village may consider such fund balance surpluses for one-time expenditures that are nonrecurring in nature, and which will not require additional staffing or recurring expenditures. The excess unassigned fund balance may be used to offset future borrowing costs for a new public works facility in 2023.

### **Economic Conditions and Outlook**

The Village's 3,555,243,900 property tax base of equalized value is primarily residential (67%) but has a sizeable commercial (23%) and manufacturing (8%) presence as well. The Village had 41 new

single-family housing starts, and 9 commercial/industrial starts or large-scale expansions. The total number of building permits issued in 2022 was 2,064 with an estimated valuation of \$48,437,210.

The Village's overall equalized value increased by 13%, following an increase of 9% the previous year. The average unemployment rate for Washington county in 2022 was 2.2%, which is lower than the Wisconsin state average of 2.9%. With the use of a variety of financing tools such as impact fees, tax incremental financing incentives, and close partnerships with local business, the Village will be able to maintain current services to our constituents. We have been able to balance the community with a mixture of agricultural, residential, commercial and industrial/office development. Germantown's fine school system and parks and recreational activities are also helpful in acquiring and keeping our residential base.

Tax Incremental District No. 6 (Willow Creek Business Park) is a Mixed-Use District, that is bounded by Appleton Avenue, Lannon Road, and Maple Road. Current construction includes Discount Ramps, Metro Cigars and Ryan Companies. The base value was \$2,796,000 and has grown to \$37,986,700 in 2022. The TID is projected to close in 2033.

Tax Incremental District No. 7 is designated as an Industrial TID. The TID was amended in 2021 in order to add territory. This district was created to capture economic growth related to JW Speaker and so far the development has not created sufficient increment to cover the District's expenses. In 2021, the TID was amended to add territory and account for the Planned Capstone Quadrangle industrial park development. The area included in the District encompasses 144.2 acres owned by the J.W. Speaker Corporation, located on Freistadt Road and by North Goldendale Rd and Capstone Quadrangle property along Goldendale Road. The project allowed for extension of 16" public watermain and the 18" public sanitary sewer interceptor from their current terminus approximately 2,400 feet north along Goldendale Road. The extension facilitated growth within the district and allowed for utility connection through to Tax Increment District No. 8. The amendment includes properties on Goldendale Road. The base value was \$9,642,400 and has grown to \$16,726,100 in 2022. The TID projected closure of 2031.

In July 2018 the Village created Tax Increment District No. 8. The district is an industrial TID, encompassing 224.8 acres which is broken into two development areas, the property controlled by Zilber Property Group (approximately 151.3 acres) and the remaining 73.5 acres to be developed in later phases. The Village anticipates making total project expenditures of approximately \$14.2 million, with completion in phases as development requires. Construction in 2019 included a 706,800 square foot Briggs & Stratton warehouse facility, with two other multi-tenant industrial buildings constructed by Zilber Property Group, plus a 100,000 square foot manufacturing facility for Dielectric. The Village had three TID No. 8 related bond issues in 2019, \$6,725,000 G.O. Community Development Bonds, \$1,755,000 Taxable G.O. Community Development Bonds, and \$7,850,000 G.O. Corporate Purpose bonds. The taxable issue will reimburse Zilber Property Group to cover their costs for internal infrastructure improvements, the other two issues have funded the expansion of water and sewer main to the development as well as road reconstruction costs. The issues also provide the initial funding to construct Well #12 and Water Tower #4, in conjunction with the Water Utility. We anticipate having the well and tower online and serving the village by 2022. The base value was \$ 640,700 and has grown to \$124,620,300 in 2022. The TID is projected to close in 2031.

The Water Utility currently operates six wells; three deep and three shallow; with a capacity of 4,416,000 gallons per day plus three elevated tank water towers, two at 125 feet and one at 190 feet. The 2022 average daily water pumped for customer consumption was 1,7,01,898 gallons. The village is moving forward with a seventh well and fourth elevated tower, completed construction by the end of 2023. The Public Service Commission approved a significant rate increase for the utility during 2021 that took effect at the beginning of 2022.

The Sewer Utility maintains 109.93 miles of sewer main, seven lift stations and one metering station. The Village contracts with Milwaukee Metropolitan Sewerage District (MMSD) for its sewage treatment, the charges from MMSD for treatment and its annual capital charge remain the utility's largest expenditure. Wrenwood subdivision, a major housing development proposed for the North East side of the Village has required an extension of interceptor sewer main, with an abandonment and

construction of a new lift station completed in 2020.

The Village continues to follow basic short-term and long-term planning policies. The Village's philosophy strives for manageable conservative budgets that allow for stable financial futures, keeping taxes and utility user rates as low as possible while guaranteeing that funds will be available to protect village infrastructure and services. The Village board is committed to maintaining a positive General Fund balance. This positive balance provides the Village with a cushion for unanticipated emergencies. The COVID-19 pandemic is a perfect example of this.

By necessity, long range planning includes assessment of future debt issuance in conjunction with current debt service requirements. Village debt policies are designed to comply with requirements of Wisconsin State Statutes and bond covenants, while maintaining the highest bond rating possible. Management reviews capital planning and resultant bond issuance in conjunction with its resources on hand and monitoring the effects on future cash flows. The Village maintains a solid Aa2 general obligation bond rating from Moody's Investors Service, based upon its healthy fund balance, conservative financial management and aggressive debt repayment schedules.

As required by State Law, comprehensive "smart growth" plans are intended to be the community's guide for future growth and development. These plans must address nine specific elements: land use; housing; transportation; utilities and community facilities; agricultural, natural and cultural resources; economic development; intergovernmental cooperation; issues and opportunities; and implementation. The Village began the process of updating the current 2020 Comprehensive Plan in 2019 with assistance from GRAEF consulting. Public workshops, meetings and hearings concerning the required components of the new 2050 Comprehensive Plan were conducted in 2020-2022. The 2050 Comprehensive Plan will include all required elements but will reflect current trends and policy decisions made over the last decade. The 2050 Comprehensive Plan overall planning process is expected to take over 24 months to complete and included an extensive "public participation program" that will provide many different opportunities for property owners, residents and other stakeholders to be part of the process. The 2050 Comprehensive Plan was adopted in 2022.

As in the past several years, development in the Village, be it residential, commercial, or industrial in nature, has been of the high quality necessary to provide the diversified tax base and tax rate necessary to provide services expected by the residents of Germantown. The Village of Germantown intends to maintain an adequate financial reserve in addition to a low tax rate to provide the citizen's excellent municipal services.

### **For the Future**

Overall, the amount and value of new development in 2022 was less than in 2021. Residential development in the Village included forty-one (41) new single-family homes completed or under construction during 2022 with a total value of \$20,573,000 (about 50 percent of the eighty new homes with a value of \$35,000,000 in 2021).

New commercial, office, and industrial development in the Village in 2022 included seven (7) new commercial/industrial projects that were completed or under construction in 2022 with a total value of \$48,487,000. Development within the Germantown Gateway Corporate Park and other land within Tax Increment District (TID) No. 8 continued in 2022, including: completion of a 233,000 sqft multi-tenant industrial building on Gateway Crossing by the Zilber Property Group (Zilber No. 5), completion of the 173,000 sqft pet food manufacturing facility by the Dickman Company for Golden Pet on Gateway Court, and completion of a separate 130,000 sqft multi-tenant industrial building by the Dickman Company nearby on Goldendale Road. Development started in the new Capstone 41 Corporate Park (Holy Hill Road east of US41) with completion of the 203,000 sqft multi-tenant industrial building. In addition, forty-four (44) additions or alterations to existing commercial sites were completed or under construction in 2022 with another \$15,100,000 in total value.

Looking ahead to 2023, the Village approved final subdivision plats for two new single-family residential neighborhoods, including Heritage Park North (35 ¼-acre lots served by municipal water & sewer) and Wrenwood North (Phase 1 with 46 ¼-acre lots served by municipal water & sewer).

Home construction in both subdivisions started in late 2022 and will continue into 2023 and beyond. With respect to new commercial and industrial development in 2023 and beyond, the Village approved the creation and expansion of Tax Increment District No. 9 located in the southeast corner of the Village (Donges Bay road @ Wasaukee Road). TID 9 is 100 acres in total area and will accommodate development of a new 375,000 sqft multi-tenant industrial building by the F-Street Group and a new 34-acre pre-cast concrete panel storage facility for Stonecast Products.

Finally, in September 2022, the Village approved the 2050 Comprehensive Plan to guide future land use and development in the Village. The 2050 Plan replaces the former 2020 Plan with updated land use and development policies based on a “place-based” approach to guiding future land use and development in thirty-two (32) separate Neighborhoods, Districts and Corridors that comprise the Village.

**Vision Statement:** Germantown’s ethnic heritage, high quality of life based on its rural and suburban character, and desirable location in the greater metropolitan area create our competitive advantage. Our people will work together, with respect for each other, to ensure that development is consistent with Germantown’s future as a neighborly and safe place to live, work and play.

**Mission Statement:** The Village of Germantown is responsive to our citizens and businesses, embracing our heritage while working together to provide quality services in a fiscally responsible manner that will enhance the quality of life in our community.

## INDEPENDENT AUDIT

Included in the financial section is the independent auditor’s report which is a significant part of the Annual Comprehensive Financial Report (ACFR). In this report, Baker Tilly US, LLP, Certified Public Accountants, express their opinion that the financial statements are presented fairly in conformity with generally accepted accounting principles and comment on the scope of the examination. The opinion is unmodified and signifies a substantial level of achievement.

# VILLAGE OF GERMANTOWN ORGANIZATIONAL CHART

## The Village of Germantown - Location Map

## Brief History of the Village of Germantown

The Village of Germantown is located in southeastern Wisconsin, in the southeastern corner of Washington County. The City of Mequon, in Ozaukee County, borders the Village on the east, and the Village of Menomonee Falls, in Waukesha County, borders it on the south. The Village is contiguous with the City of Milwaukee and Milwaukee County at its southeast corner. In Washington County, the Town of Jackson borders it to the north, and the Village of Richfield shares its western border. At 35 square miles, the Village of Germantown is one of the largest village's in geographical area in the State of Wisconsin.

The Village's current population is estimated to be 20,590. A majority of its residential, commercial and industrial development is concentrated in the suburban-like central-southern half of the village. It is in this portion, served by the Milwaukee Metropolitan Sewerage District (MMSD), and supplied with water by municipal wells, that most of Germantown's development has occurred.

The half of the village north of Freistadt Road is rural in nature, and is predominately agricultural. Current extensions of municipal water and sewer main has opened this section to some commercial and industrial development.

In 1839, a group of German immigrants, seeking greater religious freedom and the promise of rich, abundant farmland, founded the settlement of Freistadt (translated "Free City") just east of the present day Village of Germantown. Today, Freistadt Road bisects the Village of Germantown from east to west. In 1839, Anton Wiesner and Levi Ostrander became the first permanent settlers in the Town of Germantown. By 1845, all of the Town of Germantown had been taken for homesteads, mostly by German immigrants.

On 11 March 1927 South Germantown became the Village of Germantown. Eleven citizens of South Germantown had petitioned the Washington County Circuit Court for incorporation of 300 acres in section 22. The petitioners were: Father Banholzer, Adam Diefenthaler, Benn C. Duerrwaechter, Alvin Gronemeyer, Edward Rintelman, Joe Rosecky, Arthur Schmidt, Charles A. Schuster, John A. Schwalbach, Joseph J. Siegl, and Aaron Walterlin. Population of South Germantown, now Germantown, was 243

The Village of Germantown was incorporated at the Fond du Lac Avenue and Main Street area. In the early 1960's, the City of Milwaukee annexed 15 acres in the southeastern corner of the Town of Germantown. Fears over further annexations prompted the Town of Germantown to merge with the smaller Village of Germantown in 1964. Most of the Town of Germantown, except for four small "islands" totaling approximately two square miles in the northwestern portion, was included in the merger.

The Village operates under a council-manager form of government. Under this form of government, a nine member Board of Trustees is elected to exercise the legislative power of the Village and to determine matters of policy. All are elected to three year terms. The Village President, who is elected at large, is the trustee who presides at all Village Board meetings and votes on all matters. The Village President has no veto power. A Village Administrator is appointed by the Village Board to serve as manager. The administrator is the chief administrative officer and is responsible to the Board of Trustees for the proper administration of all Village affairs.

## Independent Auditors' Report

To the Village Board of  
Village of Germantown

### Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Germantown (the Village), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Germantown, Wisconsin, as of December 31, 2022 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Village and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Emphasis of Matter

As discussed in Note 1, the Village adopted the provisions of GASB Statement No. 87, *Leases*, effective January 1, 2022. Our opinions are not modified with respect to this matter.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

### **Other Information**

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## Village of Germantown

Management's Discussion and Analysis  
December 31, 2022  
(Unaudited)

Management's Discussion and Analysis provides management's overview and analysis of the Village of Germantown's (Village) basic financial statements for the year ended December 31, 2022. This discussion is designed to assist the reader in focusing on significant financial issues, provide an overview of the Village's financial activity and identify changes in the Village's financial position.

### Using This Report

This report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Village as a whole and presents a longer-term view of the Village's finances. As for governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Village's operations in more detail than the government-wide statement by providing information about the most significant funds. These statements also include information about activities for which the Village acts solely as a trustee or agent for the benefit of those outside the government.

### Reporting the Village of as Whole – Government-wide Financial Statements

One of the most important questions asked about the Village's finances is, is the Village as a whole better off or worse than the year before? The statement of Net Position and the Statement of Activities report information that helps answer that question. The statements include assets, deferred outflows of resources, liabilities and deferred inflows of resources. The Village uses an accrual basis of accounting. The current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Net Position is the difference between what the citizens own and what the citizens owe in liabilities at one moment in time. Over time, increases or decreases in the Village's Net Position are one indicator of whether its financial health is improving or not. Other nonfinancial factors play a significant role in determining the Village's overall position, such as changes in the property tax base and the conditions of the Village's capital assets (roads, buildings, water and sewer lines, etc.).

Two types of activities are reported in the Statement of Net Position and the Statement of Activities:

*Governmental activities* – Includes most of the Village's basic services, such as police, fire, street maintenance, parks, library and general administration. These services are supported primarily by property taxes, state revenues and other miscellaneous revenues (inspection fees, fines, permits).

*Business-type activities* – Water and Wastewater services. The Village charges a fee to customers to cover most of the cost of water and sanitary sewer utility services.

### Reporting the Village's Most Significant Funds – Fund Financial Statements

The analysis of the Village's major funds provides detailed information about the most significant funds. Some funds are required to be established by state law and bond covenants. However, the Village establishes other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants and other money (like donations). The Village's three kinds of funds, governmental funds, proprietary funds and fiduciary funds use different accounting approaches.

 (Unaudited)

---

***Governmental Funds*** – Most of the Village's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Village's general operations and the basic services it provides. Governmental fund information helps the user determine whether there are more or fewer financial resources available to finance the Village's programs in the future. Reconciliations between the government-wide statements and the governmental fund statements are provided with the fund financial statements.

The Village maintains twenty individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Debt Service Fund, and General Capital Projects, which are considered major funds. Data from the remaining funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements later in this report.

The basic governmental fund financial statements can be found on pages 3 – 6 of this report.

***Proprietary Funds*** – Proprietary funds are financed and reported in a manner similar to normal business-type entities and are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. The Village's enterprise funds (a component of proprietary funds) are the same as the business-type activities we report in the government-wide statements but provide more detail and additional information such as cash flows for proprietary funds. The Village's Water and Sewer Utilities are a part of this. The Village also has an internal service fund (the other component of proprietary funds) to report employee self-insurance activities.

The basic proprietary fund financial statements can be found on pages 7 – 11 of this report.

***Fiduciary Funds*** – Fiduciary Funds are used to account for resources held for the benefit of parties other than the Village. These funds are not available to fund Village activities and are not reflected in the government-wide financial statements. The Village maintains one fiduciary fund, the Tax Collection Fund which records the tax roll and tax collections for the taxing jurisdictions within the Village. It records the assets collected on behalf of other taxing units.

***Notes to the Financial Statements*** – The notes to the financial statements provide additional detail that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 15 of this report.

***Supplementary Information*** – Following the basic government-wide and fund financial statements and accompanying notes, combining statements are included for the nonmajor governmental, enterprise and internal service funds. The last section of The Village of Germantown Annual Comprehensive Financial Report presents statistical and historical reference data.

**Government-Wide Financial Analysis****Net Position**

Net Position may serve over time as a useful indicator of a government's financial position. In the case of the Village of Germantown, total net position was approximately \$154.86 million as of December 31, 2022. The largest portion of the Village's net position (80.7%) reflects its investment in capital assets (e.g. land, building, equipment, improvements, construction in progress and infrastructure) less any outstanding debt used to acquire those assets. The Village uses these assets to provide service to citizens; consequently, these assets are not available for future spending. It should be noted that the resources needed to pay debt related to capital assets must be provided from other sources, since the capital assets themselves will not be used to liquidate these liabilities.

Another portion of the Village's net position, (6%) represents resources that are subject to external restrictions on how they may be used. The remaining unrestricted net position will be discussed in later sections of this analysis. Net position of the Village as a whole increased \$5.13 million from 2021.

**Changes in Net Position**

During 2022, the net position of governmental activities increased by \$1.27 million to \$59.05 million, mainly due capital grants and contributions received during the year for construction by developers, offset by more expenses.

Net position of business-type activities totaled \$95.81 million as of December 31, 2022, \$3.85 million higher than 2021. Net investment in capital assets increased by \$4.95 million. Due in part for additional assets constructed for ongoing water and sewer main installation projects. Also shown are other restricted uses for pensions, impact fees, debt service and equipment replacement.

**Revenues**

The Statement of Activities on page 2 will show that Program Revenues in the Governmental Activities is \$10.05 million and Business-type Activities of \$14.54 million. The increase of \$4.61 million in Governmental Activities from 2021 was mainly due to the contribution of developer added public works infrastructure in 2022; Wrenwood, Heritage Park, and Wrenwood North. The increase in program revenue between 2021 and 2022 of \$4.22 million for Business-type activities is mainly due to developer added infrastructure, but also reflects the water rate increase effective as of January 1 of this year.

All general revenues other than program revenues, investment income and small miscellaneous amounts are reported as general revenues. Tax revenue, the largest portion of general revenues, increased by \$0.3 million from the prior year to \$16.58 million. Transfers shown between Governmental Activities and Business-type Activities is \$0.63 million for a payment in lieu of taxes due from the Business-type Activities to the Governmental Activities.

**Expenses**

Total expenses of \$37.41 million is an increase of \$4.18 million from 2021. Governmental Activities increased \$4.54 million, mainly due to more development expenses incurred within the tax incremental districts. The decrease to expenses in the Business-type Activities was \$0.36 million, mainly due to decreases in sewer utility expenses.

**Fund Financial Analysis****Water Utility**

The Water Utility reported an income before contributions and transfers of \$0.67 million. Operating revenues increased from prior year to \$1.06 million, mainly due to rate increase that went into effect January 1. Operating expenses decreased \$0.19 million. Capital contributions vary widely from year-to-year since they are dependent on the completion of developer and Village projects. There were developer contributions of \$1.63 million and no village contributions. The ending net position of the Water Utility is \$36.17 million.

The Village maintains six wells and three water towers within its corporate boundaries. The Village has plans to begin construction of a new well and tower in the northern part of the Village. The Village has a Water Impact Fee of \$832 per residential equivalency, charged for new construction. \$23,296 was collected in 2022 from single and multi-family home increases and new business construction. The impact fees are used to pay for the debt service on the Safe Drinking Water Loan used for construction of Well #11. The water rate case to increase water rates was approved by the Wisconsin Public Service Commission and was effective January 1, 2022. The increased revenue will cover the costs for the new well and tower and other ongoing infrastructure repair and maintenance needs.

**Sewer Utility**

The Sewer Utility reported a loss before contributions and transfers of \$0.15 million for 2022. Its overall net position increased by \$2.15 million to end the year to \$59.59 million which included capital contributions of \$2.30 million. Total operating income remained stable, with a \$0.17 million increase. Capital contributions of \$2.30 million of which \$0.12 million in sewer connection fees and \$2.18 million in developer infrastructure additions. The sewer connection fee is a charge for new connections to the system. These fees help cover ongoing maintenance and other improvements to the system.

The Village contracts with Milwaukee Metropolitan Sewerage District for its sewage treatment. Charges from MMSD for treatment and their annual capital charge remain the utility's largest expense accounting for 69.8% of the operations and maintenance expense or \$4.8 million. The Capital charge is based on the equalized value of properties within the sewer service area.

**Governmental Funds**

As of December 31, 2022, Village governmental funds reported a combined fund balance of \$41.7 million. The nonspendable, restricted, committed or assigned portion is 85.6% or \$35.7 million. A majority of that is restricted to ongoing capital expenditures and debt service, pension asset, impact fees or other special revenue funds, used as fund purposes allow.

Assigned funds of \$626,310 in the General fund is for the Water Utility Payment in Lieu of Taxes (PILOT). Additional assigned funds include for the tourism expenditures of \$137,769.

Most of the total fund balance in the Governmental Funds is in the General Fund, \$7.62 million, General Capital Projects Fund, \$31.79 million, or in Nonmajor Governmental Funds, \$2.08 million.

**General Fund**

The General Fund's net change in fund balance is a decrease of \$1.11 million, with an ending fund balance of \$7.62 million. After adjusting for nonspendable and assigned portions for the general fund, the unassigned fund balance at year end was \$6.77 million, 36% of the Village's subsequent year general fund expenditure budget. The Village's fund balance policy endeavors to maintain a working capital balance of 16-25% of the subsequent years expense budget. The excess unassigned amount over the 25% policy percentage may be used to offset future borrowing costs of major infrastructure renovations planned in future years. The balance is also a reserve rainy day fund for unforeseen emergencies, the 2020 COVID-19 pandemic is a good example of unexpected circumstances that is having lasting effects.

The General Fund is the primary operating fund used to account for the governmental operations of the Village of Germantown. Total revenues ended the year at \$17.61 million, a \$0.34 million increase from 2021. The largest revenue sources for the General fund are general property and other taxes accounting for \$10.96 million or 63.6% of total revenues. The Village had lower investment income in 2022 than budgeted. This was mostly due to declining markets and lack of recreation activities due to the effects of COVID-19. Intergovernmental revenues from other governments ended the year more than budgeted.

General Fund expenditures for 2022 of \$19.24 million increased approximately \$1.43 million. Actual excess of expenditures over revenue at year-end was \$1 million more than budgeted.

**Debt Service Fund**

Debt Service Fund has a total fund balance of \$0.18 million, all of which is restricted for the payment of debt service. Annual debt service requirements were met primarily by property taxes levied of \$3.14 million and other governmental transfers of \$1.5 million from other funds for debt payments. Expenditures for principal and interest and fiscal charges totaled \$4.78 million.

**General Capital Projects**

The General Capital Projects Fund has a total fund balance of \$31.79 million. It includes proceeds of bonds and notes that are legally restricted or assigned for expenditures for specific purposes as well as accumulated Library County Revenues intended for capital improvements. Four separate governmental debt issuances totaling \$39.92 million were issued during the year to finance current and future capital projects.

**Nonmajor Governmental Funds**

Tax Incremental District No. 6, Willow Creek Business Park, was created in 2014 as a mixed-use business park suitable for industrial and commercial purposes. The estimated saleable property consisted of fifty-two acres. The Project Plan included site grading, sanitary sewer and water systems, stormwater management, street improvements, landscaping and other site improvement infrastructure and related costs. All internal infrastructure has been completed other than a final lift of asphalt. The park currently has three buildings, Discount Ramps, Ryan Companies multi-tenant building and Metro Cigars. The total fund balance is \$0.24 million, a decrease of \$0.01 million from 2021.

In December 2017, the Village created Tax Incremental District No. 7. An industrial TID that encompasses 144.2 acres of land which is owned by the J.W. Speaker Corporation. One section of the district includes the original J.W. Speaker facility and the other area of vacant land to be developed by J.W. Speaker. The project plan also includes the extension of municipal water and sewer main from Freistadt Road North along Goldendale Road approximately 2,400 feet where it meets the Wisconsin & Southern Rail line. Speaker constructed internal roadway, water and sewer main and landscaping for their future building projects, the District will reimburse a portion of that cost up to \$708,000 with future tax increment. The total fund balance is \$0.46 million, an increase of \$0.55 million from 2021.

Tax Increment District No. 8 was created in July 2018. This industrial TID encompasses 224.8 acres which is broken into two development areas, the property controlled by the Zilber Property Group is approximately 151.3 acres and remaining 73.5 acres will be developed by the Village. The Tax Increment District is located in the northern section of the Village bounded by Holy Hill Road, Goldendale Road, Rockfield Road and US Hwy 41/45. The project plan consists of watermain and sewer main extension, site grading, storm water management, road construction, new municipal well, water tower and booster station. Expenses for Well 12 and the related water booster and storage tank were incurred in 2021 and 2022. The assets are expected to be finished in 2023. The total fund balance deficit is (\$0.77) million, a decrease of \$2.77 million from 2021.

The Village has twelve Special Revenue funds in the Nonmajor Governmental Fund section which are specifically earmarked for a single purpose and are either restricted or committed. Four of these are Impact Fee funds; Police, Fire, Parks & Recreation and Library Impact fees are imposed on new construction to fund all or a portion of the costs of providing public services to the new development. The Impact Fee Funds had fund balance growth due to the residential and commercial activity in 2022 totaling \$0.06 million. Fire, Library and Police impact fees are being used to reimburse the Village for prior debt issues used for building construction. The Parks and Recreation fee is earmarked for our Fireman's park expansion and shelter facility.

The other Special Revenue Funds are the Senior Van Replacement, Police Asset Forfeiture, Police Canine, Police Honor Guard, Historic Preservation, Recreation Department Facility Fees, Library, Fire Explorer Fund, and the ARPA fund. Details can be found in the supplemental section of this report within the Combining Balance Sheet – Nonmajor Governmental Funds, and the Combining Statement of Revenues, Expenditures, and Changes in Fund Balances – Nonmajor Governmental Funds. The combined total fund balance of these funds at year-end is \$0.15 million.

**Excess Expenditures and Other Financing Uses Over Appropriations**

Several funds have been identified as having excess expenditures and other financing uses over budget, including Police Canine Fund, Library Fund, Facility Fees Fund, and TID No. 6 Capital Projects Fund. See Note 2 for a list of funds exceeding budgeted expenditures during 2022.

**Proprietary Funds**

The Water and Sewer Utilities were discussed on previous pages.

The Health and Dental Protection Funds are Self-Funded employee insurance plans with Third- Party Administrators. The funds maintained positive cash flow ending the year at \$0.54 million. Health and dental coverage costs are monitored closely and changes to the design and scope of the plan are adjusted accordingly. Employee contributions to the fund averaged 12% of premium cost.

---

In accordance with Wisconsin Statutes, total general obligation indebtedness of the Village may not exceed 5% of the equalized value of all taxable property within the Village's jurisdiction. The debt limit as of December 31, 2022 was \$177,762,195. Total General Obligation debt outstanding was \$88,710,000.

During the year, the Village issued \$49,250,00 in general obligation debt and \$4,140,000 in revenue bonds. Additional information about the Village's long-term obligations can be found in Note 3 of this report.

### **Economic Factors and Next Year's Budgets and Rates**

- On March 11, 2021, the federal government passed the American Rescue Plan Act to respond to the COVID-19 public health emergency and its negative economic impacts. The Village's estimated appropriation is \$2.10 million, of which the Village received \$1.05 million in 2021, with the remaining received in mid-2022. The funds are to cover costs obligated by December 31, 2024. Village Administration continues to work with the Village Board to determine the best use of these dollars. All other currently known facts have been considered in the preparation of the subsequent year's budget.

### **Requests for Information**

Reconciliation of the Statement of Revenues, Expenditures,  
and Changes in Fund Balances of Governmental Funds  
to the Statement of Activities  
Year Ended December 31, 2022

**Net Change in Fund Balances, Total Governmental Funds** \$ 26,581,824

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of net position the cost of these assets is capitalized and they are depreciated over their estimated useful lives and reported as depreciation expense in the statement of activities.

Governmental funds report debt premiums and discounts as other financing sources (uses) or financing sources or uses. However, in the statement of net position, these are reported as additions to or deductions from long-term debt. These are allocated over the period the debt is outstanding in the statement of activities and are reported as interest expense.

**1. Summary of Significant Accounting Policies**

The accounting policies of the Village of Germantown, Wisconsin (the Village) conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

**Reporting Entity**

This report includes all of the funds of the Village. The reporting entity for the Village consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The Village has not identified any organizations that meet this criteria.

**Government-Wide and Fund Financial Statements**

In June 2017, the GASB issued Statement No. 87, *Leases*. This Statement requires the recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The standard establishes a single model for lease accounting based on the foundational principle that leases are financings of the right-to-use an underlying asset. Under the Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, which enhances the relevance and consistency of information about the Village's leasing activities. This standard was implemented January 1, 2022.

**Government-Wide Financial Statements**

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The Village does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

**Fund Financial Statements**

Financial statements of the Village are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund balance, revenues and expenditures/expenses.

---

Funds are organized as major funds or nonmajor funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the Village believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Village reports the following major governmental funds:

**General Fund**

General Fund accounts for the Village's primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.

**Debt Service Fund**

Debt Service Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for the payment of general long-term debt principal, interest and related costs, other than TID or enterprise debt.

**Capital Projects Fund**

General Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets for the capital projects program.

**Enterprise Funds**

The Village reports the following major enterprise funds:

Water Utility accounts for operations of the water system

Sewer Utility accounts for operations of the sewer system

The Village reports the following nonmajor governmental funds:

**Special Revenue Funds**

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

|                                      |                                     |

| American Rescue Plan Act (ARPA) Fund |                                     |

**Capital Projects Funds**

Capital Projects Funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

|                                      |                                      |

| Tax Incremental District (TID) No. 7 | Tax Incremental District (TID) No. 9 |

In addition, the Village reports the following fund types:

**Internal Service Funds**

Internal Service Funds are used to account for and report the financing of goods or services provided by one department or agency to other departments or agencies of the Village, or to other governmental units, on a cost-reimbursement basis.

|                       |
|-----------------------|

**Measurement Focus, Basis of Accounting and Financial Statement Presentation****Government-Wide Financial Statements**

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

---

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Village's water and sewer utilities and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

**Fund Financial Statements**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred inflows. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period the Village is entitled to the resources and the amounts are available. Amounts owed to the Village which are not available are recorded as receivables and unavailable revenues. Amounts received before eligibility requirements (excluding time requirements) are met are recorded as liabilities. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Special assessments are recorded as revenues when they become measurable and available as current assets. Annual installments due in future years are reflected as receivables and unavailable revenues.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

**Proprietary and Fiduciary Funds**

Proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note.

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer funds are charges to customers for sales and services. Special assessments are recorded as receivables and contribution revenue when levied. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

### Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity

#### Deposits and Investments

For purposes of the statement of cash flows, the Village considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Investment of Village funds is restricted by Wisconsin state statutes. Available investments are limited to:

- a. Time deposits in any credit union, bank, savings bank or trust company.
- b. Bonds or securities of any county, city, drainage district, technical college district, village, town or school district of the state. Also, bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, a local cultural arts district, the University of Wisconsin Hospitals and Clinics Authority or the Wisconsin Aerospace Authority.
- c. Bonds or securities issued or guaranteed by the federal government.
- d. The local government investment pool.
- e. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- f. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- g. Repurchase agreements with public depositories, with certain conditions.

The Village has adopted an investment policy. That policy follows the state statute for allowable investments.

The Village's investment policy allows for demand deposits and certificates of deposit at several designated depositories without restriction as to amount of deposit or collateralization. For other financial institutions, the policy limits certificates of deposit to \$500,000 unless collateralized with certain investments. All governmental bonds and securities purchased as collateral must be placed in a segregated account in the Village's name.

The investment policy addresses credit risk and concentration of credit risk by limiting investments to the types of securities listed in the policy, which follows state statutes. The Village will pre-qualify financial institutions, brokers/dealers, intermediaries and advisors before doing business with them. In addition, the Village's investment portfolio will be diversified so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized.

**Village of Germantown**

Notes to Financial Statements

---

The Village's investment policy also addresses interest rate risk by requiring investment in securities that mature to meet cash flow requirements, funds that are primarily made up of shorter-term securities, money market mutual funds or similar investment pools and limiting weighted average maturity of portfolios to three years.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on methods and inputs as outlined in Note 3. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances. The difference between the bank statement balance and carrying value is due to outstanding checks and/or deposits in transit.

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF) and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At December 31, 2022, the fair value of the Village's share of the LGIP's assets was substantially equal to the amount as reported in these statements.

See Note 3 for further information.

**Receivables**

Property taxes are levied in December on the assessed value as of the prior January 1. In addition to property taxes for the Village, taxes are collected for and remitted to the state and county governments as well as the local school district and technical college district. Taxes for all state and local governmental units billed in the current year for the succeeding year are reflected as receivables and due to other taxing units on the accompanying statement of fiduciary net position.

Property tax calendar - 2022 tax roll:

|                                              |                  |
|----------------------------------------------|------------------|
| Lien date and levy date                      | December 2022    |
| Tax bills mailed                             | December 2022    |
| Payment in full, or                          | January 31, 2023 |
| First installment due                        | January 31, 2023 |
| Second installment due                       | July 31, 2023    |
| Personal property taxes in full              | January 31, 2023 |
| Tax sale - 2022 delinquent real estate taxes | October 2025     |

Accounts receivable have been shown net of an allowance for uncollectible accounts. Delinquent real estate taxes as of July 31 are paid in full by the County, which assumes the collection thereof. No provision for uncollectible accounts receivable has been made for the water and sewer utilities because they have the right by law to place substantially all delinquent bills on the tax roll and other delinquent bills are generally not significant.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the governmental-wide financial statements as internal balances.

---

**Prepaid Items**

Governmental fund inventory items are charged to expenditure accounts when purchased. Year-end inventory was not significant.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

**Restricted Assets**

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net position.

**Capital Assets****Government-Wide Financial Statements**

Capital assets, which include property, plant and equipment (including right-to-use lease assets), are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 general capital assets and \$25,000 for infrastructure assets and an estimated useful life in excess of one year. All capital assets are valued at historical cost or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor and overhead. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method. The range of estimated useful lives by type of asset is as follows:

|                         |              |
|-------------------------|--------------|
| Buildings               | 40-50 Years  |
| Land Improvements       | 25 Years     |
| Machinery and Equipment | 5-20 Years   |
| Utility System          | 20-100 Years |
| Infrastructure          | 20-50 Years  |

**Fund Financial Statements**

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

**Village of Germantown**

Notes to Financial Statements

---

**Deferred Outflows of Resources**

A deferred outflow of resources represents a consumption of net position/fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

**Compensated Absences**

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, and are payable with expendable resources.

Employees who retire and are eligible to draw a Wisconsin Retirement Annuity will have 50%, or other collectively bargained percentage, of their unused accumulated sick leave converted into dollars at the time of their retirement and forwarded to ICMA Retirement Corporation to open a VantageCare Retirement Health Savings Plan (RHS). The RHS is a tax-advantaged investment plan dedicated to funding health care costs. The employee has ownership of the funds and may use the dollars to remain on the Village health care plan until age 65. Funding for the RHS contribution are provided out of the current operating budget of the Village. The contributions are financed on a pay-as-you-go basis. The total expenditure for the year was \$133,185.

Payments for vacation and sick leave will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave liabilities at December 31, 2022, are determined on the basis of current salary rates and include salary related payments.

**Long-Term Obligations/Conduit Debt**

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable and accrued compensated absences.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are amortized over the life of the issue using the effective interest method. The balance at year end is shown as an increase or decrease in the liability section of the statement of net position.

The Village has approved the issuance of industrial revenue bonds (IRB) for the benefit of private business enterprises. IRB's are secured by mortgages or revenue agreements on the associated projects, and do not constitute indebtedness of the Village. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. The total amount of IRB's outstanding at the end of the year is approximately \$31,645,017, made up of 9 issues.

**Deferred Inflows of Resources**

A deferred inflow of resources represents an acquisition of net position/fund balance that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

**Village of Germantown**

Notes to Financial Statements

**Equity Classifications****Government-Wide Statements**

Equity is classified as net position and displayed in three components:

- a. **Net Investment in Capital Assets** - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. **Restricted Net Position** - Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. **Unrestricted Net Position** - All other net positions that do not meet the definitions of "restricted" or "net investment in capital assets."

The net position section includes an adjustment for capital assets owned by the business-type activities column, but financed by the debt of the governmental activities column. The amount is a reduction of "net investment in capital assets" and an increase in "unrestricted" net position, shown only in the total column. A reconciliation of this adjustment is as follows:

|                                  | <b>Governmental<br/>Activities</b> | <b>Business-Type<br/>Activities</b> | <b>Adjustment</b> | <b>Total</b>   |
|----------------------------------|------------------------------------|-------------------------------------|-------------------|----------------|
| Net investment in capital assets | \$ 48,158,074                      | \$ 88,124,204                       | \$ (11,268,166)   | \$ 125,014,112 |
| Unrestricted                     | 3,269,026                          | 5,891,376                           | 11,268,166        | 20,428,568     |

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

**Fund Statements**

Governmental fund balances are displayed as follows:

- a. **Nonspendable** - Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. **Restricted** - Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. **Committed** - Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority. Fund balance amounts are committed through a formal action (resolution) of the Village Board. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Village Board that originally created the commitment.

**Village of Germantown**

Notes to Financial Statements  
December 31, 2022

---

- d. **Assigned** - Includes spendable fund balance amounts that are intended to be used for specific purposes that do not meet the criteria to be classified as restricted or committed. The Village Board has, by resolution, adopted a financial policy authorizing the Director of Finance to assign amounts for a specific purpose. Assignments may take place after the end of the reporting period.
- e. **Unassigned** - Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those purposes.

Proprietary fund equity is classified the same as in the government-wide statements.

The Village considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents / contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the Village would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The Village has a formal minimum fund balance policy. That policy is to maintain a working capital fund of 16-25% of the Village's subsequent year general fund expenditure budget. The balance at year-end was \$6,772,839 or 36%, and is included in unassigned general fund balance.

See Note 3 for further information.

**Pension**

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Wisconsin Retirement System (WRS) and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Basis for Existing Rates****Water Utility**

Current water rates were approved by the Public Service Commission of Wisconsin, effective January 1, 2022.

**Sewer Utility**

Current sewer rates were approved by the Village Board with an effective date of December 15, 2014.

**2. Stewardship, Compliance and Accountability****Budgetary Information**

A budget has been adopted for the all funds except the Fire Explorer Fund, ARPA Fund, and TID No. 9 Capital Projects Fund. A budget has not been formally adopted for the funds listed, as they were created after the respective budgets were adopted. Wisconsin Statute 65.90 requires that an annual budget be adopted for all funds.

| TID No. 6 Capital Projects Fund | 460,132                                                           | 525,511                                                         | 65,379                                                                          |

The Village controls expenditures at the department level. Some individual departments experienced expenditures which exceeded appropriations. The detail of those items can be found in the Village's year-end budget to actual report.

**Deficit Balances**

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year end.

As of December 31, 2022, the following individual funds held a deficit balance:

| <b>Fund</b>                | <b>Amount</b> | <b>Reason</b>                  |
|----------------------------|---------------|--------------------------------|
| Historic Preservation      | \$ 156        | Expenditures exceeded revenues |
| Facility Fees              | 1,143         | Expenditures exceeded revenues |
| TID No. 8 Capital Projects | 771,701       | Expenditures exceeded revenues |

TIF district deficits are anticipated to be funded with future incremental taxes levied over the life of the districts, which is 27 years for the districts created before October 1, 1995, and 23 years for districts created thereafter through September 30, 2004. Beginning October 1, 2004, the life of new districts varies by type of district (20-27 years) and may be extended in some cases. The Historic Preservation and Facilities Fee deficits are anticipated to be funded with future charges for services and donations.

**Limitations on the Village's Tax Levy**

Wisconsin law limits the Village's future tax levies. Generally the Village is limited to its prior tax levy dollar amount (excluding TIF Districts), increased by the greater of the percentage change in the Village's equalized value due to net new construction or zero percent. Changes in debt service from one year to the next are generally exempt from this limit with certain exceptions. The Village is required to reduce its allowable levy by the estimated amount of fee revenue it collects for certain services, if those services were funded in 2013 by the property tax levy. Levies can be increased above the allowable limits if the amount is approved by referendum.

**3. Detailed Notes on All Funds****Deposits and Investments**

The Village maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the statement of net position and balance sheet as cash and investments.

The Village's deposits and investments at year end were comprised of the following:

|                                                | <u>Carrying<br/>Value</u> | <u>Statement<br/>Balances</u> | <u>Associated Risks</u>                  |

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposit accounts (interest-bearing and noninterest-bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the nature of this fund, recovery of material principal losses may not be significant to individual municipalities. This coverage has not been considered in computing custodial credit risk.

The Securities Investor Protection Corporation (SIPC), created by the Securities Investor Protection Act of 1970, is an independent government-sponsored corporation (not an agency of the U.S. government).

SIPC membership provides account protection up to a maximum of \$500,000 per customer, of which \$100,000 may be in cash. \$500,000 of the Village's investments are covered by SIPC.

The Village maintains collateral agreements with its banks. At December 31, 2022, the banks had pledged various government securities in the amount of \$25,000,000 to secure the Village's deposits.

The Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The valuation methods for recurring fair value measurements are as follows:

- Quoted market prices

**Custodial Credit Risk****Deposits**

Custodial credit risk is the risk that in the event of a financial institution failure, the Village's deposits may not be returned to the Village.

The Village does not have any deposits exposed to custodial credit risk.

**Investments**

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

All investments that are subject to custodial credit risk have collateral held by the pledging financial institution.

**Credit Risk**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

**Receivables**

All of the receivables on the balance sheet are expected to be collected within one year, except for special assessments and delinquent taxes.

Governmental funds report *unavailable* or *unearned revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *unavailable revenue* and *unearned revenue* reported in the governmental funds were as follows:

|                                                           | <u>Unearned</u>      | <u>Unavailable</u> |

**Restricted Assets**

The following represent the balances of the restricted assets:

**Long-Term Debt Accounts**

**Redemption** - Used to segregate resources accumulated for debt service payments over the next twelve months.

**Reserve** - Used to report resources set aside to make up potential future deficiencies in the redemption account.

**Depreciation** - Used to report resources set aside to fund plant renewals and replacement or make up potential future deficiencies in the redemption account.

**Equipment Replacement Account**

The sewer utility established an equipment replacement account to be used for significant mechanical equipment replacement as required by the Wisconsin Department of Natural Resources.

**Impact Fee Account**

The Village has received impact fees which must be spent in accordance with the local ordinance and state statutes. Any unspent funds must be refunded to the current property owner.

Notes to Financial Statements  
December 31, 2022

Interfund balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system and (3) payments between funds are made.

**Advances**

The water utility is advancing funds to TID No. 6 capital projects fund and TID No. 7 capital projects fund. The amount advanced is equal to the TID No. 6 and TID No. 7 related debt issued during 2022. The repayment schedule of the advances is included in the repayment schedule of the 2022 Water Revenue Bonds.

The following is a schedule of interfund advances:

| <u>Receivable Fund</u> | <u>Payable Fund</u>        | <u>Amount</u>       | <u>Amount Not Due Within One Year</u> |
|------------------------|----------------------------|---------------------|---------------------------------------|
| Water utility          | TID No. 6 capital projects | \$ 555,000          | \$ 530,000                            |

Notes to Financial Statements  
December 31, 2022

Generally, transfers are used to (1) move revenues from the fund that collects them to the fund that the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

**Short-Term Debt Activity**

**Village of Germantown**

Notes to Financial Statements  
December 31, 2022

In accordance with Wisconsin Statutes, total general obligation indebtedness of the Village may not exceed 5% of the equalized value of taxable property within the Village's jurisdiction. The debt limit as of December 31, 2022, was \$177,762,195. Total general obligation debt outstanding at year end was \$88,710,000.

**General Obligation Debt**

All general obligation debt payable is backed by the full faith and credit of the Village. Debt in the governmental funds will be retired by future property tax levies or tax increments accumulated by the debt service fund. Business-type activities debt is payable by revenues from user fees of those funds or if the revenues are not sufficient, by future tax levies.

**Revenue Debt**

Business-type activities revenue bonds are payable only from revenues derived from the operation of the water utility system.

The Village has pledged future water revenues to repay revenue bonds issued in 2009 and 2022. Proceeds from the bonds provided financing for the construction of water plant. The bonds are payable solely from water revenues and are payable through 2035. Annual principal and interest payments on the bonds are expected to require 11.73% of gross revenues. The total principal and interest remaining to be paid on the bonds is \$5,602,095. Principal and interest paid for the current year and total customer gross revenues were \$52,025 and \$3,673,495, respectively.

Revenue debt payable at December 31, 2022, consists of the following:

**4. Other Information****Employees' Retirement System****Plan Description**

The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

Additionally, ETF issued a standalone Wisconsin Retirement System Financial Report, which can also be found using the link above.

**Vesting**

For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

**Benefits Provided**

Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and executive service retirement participants, if hired on or before 12/31/2016) are entitled to retirement benefit based on a formula factor, their average earnings and creditable service.

Final average earnings is the average of the participant's three highest annual earnings period. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at age 55 (50 for protective occupations) and receive an actuarially reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

**Post-Retirement Adjustments**

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the floor) set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

| <b>Year</b> | <b>Core Fund<br/>Adjustment %</b> | <b>Variable Fund<br/>Adjustment %</b> |

**Contributions**

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for General category employees, including Teachers, Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$768,133 in contributions from the Village.

Contribution rates for the plan year reported as of December 31, 2022 are:

| <b>Employee Category</b>                 | <b>Employee</b> | <b>Employer</b> |

**Pension Liability (asset), Pension Expense (Revenue), Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At December 31, 2022, the Village reported an liability (asset) of \$(5,281,697) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2020 rolled forward to December 31, 2021. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The Village's proportion of the net pension liability (asset) was based on the Village's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2021, the Village's proportion was 0.06552825%, which was an increase of 0.00177440% from its proportion measured as of December 31, 2020.

For the year ended December 31, 2022, the Village recognized pension expense of \$(593,368).

At December 31, 2022, the Village reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

*\* No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.7% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.*

Actuarial assumptions are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. Based on this experience study, actuarial assumptions used to measure the Total Pension Liability changed from prior year, including the discount rate, long-term expected rate of return, post-retirement adjustment, price inflation, mortality and separation rates. The Total Pension Liability for December 31, 2021 is based upon a roll-forward of the liability calculated from the December 31, 2020 actuarial valuation.

**Long-Term Expected Return on Plan Assets**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

**Single Discount Rate**

A single discount rate of 6.8% was used to measure the total pension liability, as opposed to a discount rate of 7.0% for the prior year. This single discount rate is based on the expected rate of return on pension plan investments of 6.8% and a municipal bond rate of 1.84% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2021. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.). Because of the unique structure of WRS, the 6.8% expected rate of return implies that a dividend of approximately 1.7% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the investment rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the Village's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate**

The following presents the Village's proportionate share of the net pension liability (asset) calculated using the discount rate of 6.80%, as well as what the Village's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.80%) or 1-percentage-point higher (7.80%) than the current rate:

**Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

At December 31, 2022, the Village reported a payable to the pension plan which represents contractually required contributions outstanding as of the end of the year.

**Risk Management**

The Village is exposed to various risks of loss related to torts; theft of, damage to or destruction of assets; errors and omissions; workers compensation; and health care of its employees. The Village purchases commercial insurance to provide coverage for losses from torts; theft of, damage to or destruction of assets; errors and omission; and workers compensation. However, other risks, such as health and dental care of its employees are accounted for and financed by the Village in the health insurance and dental insurance internal service funds.

**Self Insurance**

For health claims, the uninsured risk of loss is \$45,000 per incident and \$2,000,000 in the aggregate for a policy year. The Village has purchased commercial insurance for claims in excess of those amounts. Settled claims have not exceeded the commercial coverage in any of the past three years.

All funds of the Village participate in the risk management program. Accounts payable in the internal service funds are based on estimates of the amounts necessary to pay prior and current year claims. That reserve was \$448,659 at year-end and is reported in unrestricted net position of the internal service funds

A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss is reasonably estimable. Liabilities include an amount for claims that have been incurred but not reported. The Village does not allocate overhead costs or other nonincremental costs to the claims liability.

**Claims Liability**

| Unpaid Claims, Ending                        | <u>\$ 80,609</u>   | <u>\$ 94,327</u>    |

**Commitments and Contingencies**

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments are only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred.

The Village has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

The Village has active construction projects as of December 31, 2022. Work that has been completed on these projects but not yet paid for (including contract retainages) is reflected as accounts payable and expenditures.

In 2018, the Village issued a municipal revenue obligation as part of a development agreement. The amount of the obligation was \$1,000,000, and is payable to the developer solely from tax increments collected from a specific portion of the development in TID No. 8.

Payments are scheduled through the year 2033, and carry an interest rate of 3.75%. The obligation does not constitute a charge upon any funds of the Village. In the event that future tax increments are not sufficient to pay off the obligation, the obligation terminates with no further liability to the Village. Since the amount of future payments is contingent on the collection of future TIF increments, the obligation is not reported as a liability in the accompanying financial statements. The balance of the commitment outstanding at year end was \$940,347.

### Effect of New Accounting Standards on Current-Period Financial Statements

The Governmental Accounting Standards Board (GASB) has approved the following:

- Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*
- Statement No. 96, *Subscription-Based Information Technology Arrangements*
- Statement No. 99, *Omnibus 2022*
- Statement No. 100, *Accounting Changes and Error Corrections - an Amendment of GASB Statement No. 62*
- Statement No. 101, *Compensated Absences*

When they become effective, application of these standards may restate portions of these financial statements.

**REQUIRED SUPPLEMENTARY INFORMATION**

## **GENERAL FUND**

The general fund is used to account for resources traditionally associated with government which are not required legally or by sound financial management to be accounted for in another fund.

Notes to Required Supplementary Information  
Year Ended December 31, 2022

---

**Budgetary Information**

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note 1.

The budgeted amounts presented include any amendments made. The Village may authorize transfers of budgeted amounts within departments. Transfers between departments and changes to the overall budget must be approved by a two-thirds Village Board action.

Appropriations lapse at year-end unless specifically carried over. There were no carryovers to the following year. Budgets are adopted at the department level of expenditure.

**Wisconsin Retirement System**

The amounts determined for each fiscal year were determined as of the calendar year-end and occurred within the fiscal year.

The Village is required to present the last ten years of data; however, accounting standards allow the presentation of as many years as are available until ten fiscal years are presented.

*Changes in benefit terms.* There were no changes of benefit terms for any participating employer in the Wisconsin Retirement System (WRS).

*Changes of assumptions:*

Based on a three-year experience study conducted in 2021 covering January 1, 2018 through December 31, 2020, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-end December 31, 2021, including the following:

- Lowering the long-term expected rate of return from 7.0% to 6.8% Lowering the discount rate from 7.0% to 6.8%
- Lowering the price inflation rate from 2.5% to 2.4%
- Lowering the post-retirement adjustments from 1.9% to 1.7%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.

Based on a three-year experience study conducted in 2018 covering January 1, 2015 through December 31, 2017, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-ended December 31, 2018, including the following:

- Lowering the long-term expected rate of return from 7.2% to 7.0% Lowering the discount rate from 7.2% to 7.0%
- Lowering the wage inflation rate from 3.2% to 3.0% Lowering the price inflation rate from 2.7% to 2.5%
- Lowering the post-retirement adjustments from 2.1% to 1.9%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table.

All equalized valuations of property in the State of Wisconsin are determined by the State of WI, Department of Revenue, Supervisor of Assessment Office.  
Equalized valuations are the State's estimate of full market value.

The State determines assessed valuation of all manufacturing property in the State. Assessed valuations of residential and commercial property are determined by local assessors. New and improved residential and commercial property located within the Village are assessed annually by the local assessor. At hearings held each year a taxpayer may appeal the assessments of his property to the Board of Review of the local municipality.

The Board of Review consists of local assessors, local officials, and citizen appointees. The assessors do not have a vote on final determinations.

The State's full value law mandates that all assessable property in the State be valued by 100% of market value. Statutes, case law, and administrative rules require that each major class of property (except agricultural property) be kept within 10% of that full value at least once in the past four years.

Village wide revaluations are then undertaken

1 The Schools tax rate reflects the composite rate of all local school districts and the technical college districts

2 Includes the state reforestation tax which is apportioned to each county on the basis of its full value Counties, in turn, apportion the tax to the tax districts within their borders on the basis of full value. It also includes any tax increment and taxes levied for special purpose districts such as metropolitan sewerage districts, sanitary districts, and public inland lake protection districts. State property taxes were eliminated in the State's budget starting 2017

3 Property tax less state property tax credit (not including lottery credit).
